How I make presentations in markdown with pandoc

Alejandro Javier Ruiz Iglesias

Computational Story Lab, Vermont Complex Systems Institute, University of Vermont

You can find this presentation in this github repo

What do you need installed?

- pandoc
- pdflatex (or any other latex compiler)

Example reference

I wrote a paper on MBFC [1].

You can also include footnotes[1].

[1] like this

Entire database

	Papers with text	All papers
Papers with MBFC	329 (5.01%)	372 (3.50%)
Total papers	6,514	10,642

Papers containing "misinformation"

	Papers with text	All papers
Papers with MBFC	259 (7.38%)	263 (6.49%)
Total papers	3,509	4,051

tljasldjaf

This is an undercount

- Paper text availability
- Greediness of snowball algorithm
- Skipping bundled sources, e.g., Infodemic Observatory, NELA-GT-2020, iffy.news, wikisignals.org

Example figure (using latex)

References i

TODOs

TODOs

- change theme colors
- custom latex functions (a TODO one)

Nice to haves

- adjust image of slides
